BRIEF SUMMARY

I am a dedicated and versatile B.Tech student with a strong commitment to my studies. I excel in object-oriented programming, data structures, and problem-solving. My proficiency extends to various web technologies, such as HTML, CSS, JavaScript, Node.js, Express.js, React.js, DOM manipulation, and Bootstrap, due to my solid knowledge of web development. Moreover, my expertise in Python and Pandas equips me to proficiently conduct statistical analyses and manipulate data. My familiarity with Power BI further enhances my capabilities in data visualization and business intelligence. In addition to my technical skills, I possess effective communication and coordination abilities. Alongside my logical and analytical reasoning, I am adept at approaching challenges systematically and strategically. I thrive as a quick learner, consistently expanding my knowledge base, and embracing new challenges with enthusiasm. I am actively seeking a role that will allow me to apply my diverse skill set and contribute meaningfully to the success of a dynamic team. I am confident that my well-honed problem-solving skills and adaptability render me a valuable asset to any organization.

INTERNSHIPS

Goglobalways 05 Jan, 2022 - 05 Sep, 2022
Stem Educator

Key Skills: Web Development · Teaching · Teamwork · Content Providers · Management · Technical Writing

I worked as a paid intern for nine months at GoGlobalWays as a STEM educator and content writer. In this role, my primary responsibilities included teaching web development to a group of students and conducting demo classes for new students joining the program. Additionally, I was tasked with creating engaging content for their website.

Furthermore, I handled various administrative duties such as managing attendance records, recording classes, and scheduling future sessions.

PROJECTS

SwiftNotes

Key Skills: HTML · CSS · React.js · Bootstrap

The application is an exceptional tool utilized for effortlessly creating and managing notes. Users can efficiently delete and add notes with ease. The user interface (UI) incorporates dedicated components specifically designed for these actions, ensuring a seamless experience.

The application is developed using React.js, a powerful front-end JavaScript library renowned for its ability to construct user interfaces based on reusable UI components. By leveraging React.js, the application benefits from its robust features and efficient rendering, resulting in a highly responsive and intuitive user experience.

Github Explorer

Key Skills: HTML · CSS · Javascript · Bootstrap · API

Github Explorer is a user-friendly website specifically designed to retrieve comprehensive details about Github users. By simply entering a username, users can effortlessly access key information such as the user's name, repository count, and number of followers. Developed using the Github API, the website seamlessly integrates with the platform to gather and present accurate data.

Furthermore, an added convenience is that by clicking on a username, users are seamlessly redirected to the corresponding GitHub profile, enabling further exploration and engagement with the user's repositories and contributions.
